What coordination strategies are used by agile teams when working from anywhere?

- Unscheduled meetings were upheld through the use of virtual rooms because they communicate how accessible others are.
- Tasks with vague requirements were chosen for office time because they require continuous clarifications and interpretations.
- Freeing up office time for unscheduled meetings and scheduling status reporting meetings to virtual time.

Transformit – Data-driven digital transformation

The Research Council of Norway funds the research for 4 years

What we research:

• Data and ownership
• Products from data
• Working-from-anywhere
• Product teams
